

Math's Day Report – 18 July

This year Math's day was observed on 18th July 2017. Student's participated enthusiastically in various activities. This was one of the attempts to make Math's interesting and overcome Math's forbia. Students of middle School participated in Fancy dress competition play also conducted by VIII class students IX and X class students organized Math's game stall. Students enjoyed playing Math's games. It is indeed surprising for many people that math's can be so interesting. Class XI and XII students made day more colourful by making Mathematical Rangoli. In every activity I and III are declared and certificates were given to students by various judges in each activity.
